

Welcome to the first SSC Research School meeting!

ON THE 8-9 OF OCTOBER 2013, a first meeting for the PhD-students within SSC Research School will be arranged. This meeting will be held at the **Stress Research Institute** at Frescati Hagväg 16 at the Stockholm University campus.

This meeting aims to bring together all PhD-students and give all the opportunity to get to introduce yourselves and your different research areas to each other. Another important issue to be discussed involves the forms of future meetings within the Research School.

The Research School has an open format and can be considered a platform for meeting and discussing your research with other PhD-students from other disciplines. It also offers a range of PhD courses. I would like to invite new PhD students along with students who will defend their thesis in the near future. The exchange between newcomers and more experienced students is important for learning but can also give all access to an inspiring network.

HOW TO PREPARE FOR THE RESEARCH SCHOOL MEETING?

I would like you to prepare a short presentation of your thesis work. The length of the presentation depends on the number of participants. This means that you will get more detailed information after the registration deadline.

HOW TO REGISTER FOR THE RESEARCH SCHOOL MEETING?

Please register at the latest 30/9 by sending an e-mail to erik.berntson@psychology.su.se. If you want vegetarian food or have any food allergies please mention this in your email.

PRELIMINARY SCHEDULE

TUESDAY OCTOBER 8TH

- | | |
|--------|--|
| 1300 | Information and introduction
(<i>Erik Berntson</i>) |
